Family Foundation

## PACE Receives \$100,000 Challenge Grant from The Sobrato Family Foundation

**Santa Clara, CA, February 26, 2014** – The Pacific Autism Center for Education (PACE) today announced the receipt of a \$102,500 grant from The Sobrato Family Foundation for general operations over a two-year period (through August 2015). This 2:1 Challenge Grant will be used to encourage PACE supporters to join their funds with the Sobrato monies, thereby doubling fundraising efforts.

To benefit fully, PACE's challenge is to raise new and increased contributions that total \$50,000 by December 31, 2014. The goal is for current donors to increase their annual donation, for lapsed donors to renew their commitment to PACE, and for new donors to step forward and make their financial commitment in this calendar year. Once PACE meets this challenge, the Foundation will match and double those donations and provide a second year of funding of \$52,500. If PACE succeeds with this donation strategy, and with the two years of funding from the Sobrato Family Foundation, by January 2016 PACE will have raised at least \$152,500 in new monies, all to support PACE's staff, facilities, and programs.

PACE will use a portion of these funds to further their efforts in providing parents and caregivers more comprehensive training and direct usable strategies on day-to-day routine tasks and challenges for those in their care. Enhanced parent/caregiver training will build competence and compassion and create a community of support for those who live with autism.

"These funds will ensure that PACE continues to provide innovative programs and services for those with Autism Spectrum Disorders and their caregivers in the San Francisco Bay Area," said Kurt Ohlfs, PACE Executive Director. "We are so pleased that the Sobrato Foundation continues to support our mission and provides this funding, allowing us to implement training and support for both our students, and their parents."

The  
**SOBRATO** 2:1 Fundraising Challenge Grant  
Family Foundation

Please consider making a donation to PACE to double the impact of your support! For every new dollar we receive from community members like you, the Sobrato Family Foundation will match it - times two - up to \$100,000. And every donation helps us provide high-quality programs and services for children and adults living with autism in the Bay Area.

Earlier this year, the Sobrato Family Foundation chose our agency to receive a 2:1 Challenge Grant of \$100,000 over 2 years. If our agency receives \$50,000 in 2014 in new or increased donations from individual community members, the Foundation will match and double those donations, resulting in a \$100,000 increase in funds supporting our general operations and community programming.

Autism is a neuro-developmental disability that impacts an individual's ability to regulate sensory input, to communicate, to interact socially, and to learn in conventional ways. Autism is considered a spectrum disorder and so affects each individual differently and at varying degrees.
