

Event #5

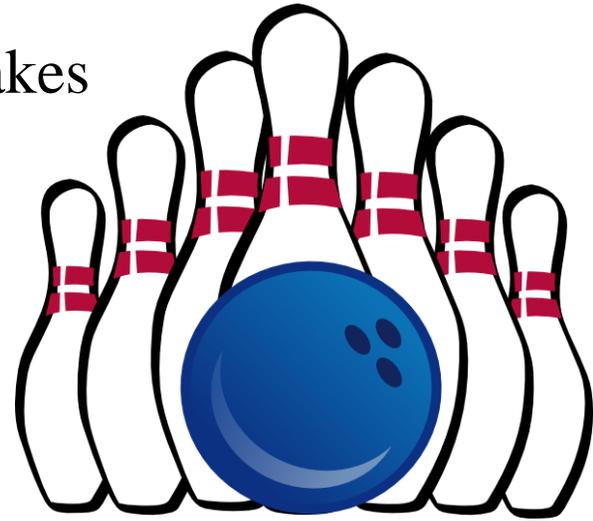

Bowling

Who doesn't love bowling? All it takes is a few simple materials: a ball, and some empty water bottles!

Take a peek in your recycling bin to make your own bowling pins.

Fill each bottle with a little bit of water, set them up in the shape of a triangle,

and roll the ball! Don't forget to keep track of how many pins you knocked down to find out your score!

Decorate your bottles for added fun!
