

**August 2023**  
**FOR IMMEDIATE RELEASE**

**A Message from the Executive Director:**

We are thrilled to share the exciting news of our PACE School program's expansion and the opening of our new PACE San Aleso Campus in Sunnyvale, CA in Fall 2023. The expansion of our school program marks a significant milestone that reflects the dedication, commitment, and excellence of the entire PACE community. With this expansion, PACE will extend its reach and impact, enabling us to support more students and families seeking high-quality educational programs for those impacted by autism in the Bay Area.

The PACE San Aleso Campus will provide state-of-the-art facilities, individualized education programs, and a team of passionate educators and therapists committed to creating an inclusive and nurturing environment for our students and their families. The campus, which will serve our upper-grade levels, is equipped to accommodate up to ten classrooms and will feature an innovative Occupational Therapy gym, dedicated vocational training rooms, and indoor/outdoor space designed to fit the sensory needs of our students.

The current PACE School campus in Santa Clara, PACE Pruneridge Campus, will continue to operate classroom and therapy services for elementary grade levels. Our Sunny Days Preschool campus in San Jose, CA, will continue to house our early intervention programs, including Sunny Days Preschool and Faces Behavioral Services. With the expansion, our early intervention programs will be able to deliver Applied Behavioral Analysis (ABA), and communication and social skills to more children and their families.

The opening of our new campus marks a significant milestone made possible through the collective dedication and boundless support of our entire community. We thank our students, staff, families, and community partners for being an integral part of this journey. We look forward to welcoming our new campus this Fall and continuing to work together to make a difference in the lives of those we serve.
