 *Availability based on therapists' schedule and waitlist.

Parent Involvement

At Sunny Days, we believe it is important for the entire family to be active participants in their student's educational experience at school. Families are invited to participate in the following activities:

- Class Parties and Celebrations
- Annual PACE Events and Various Volunteer Projects
- Caregiver Collaboration and Lectures

It is especially important that parents remain active in their child's education by communicating with the staff. Families should inform staff of any significant changes that are occurring at home, in therapies, with general health, etc. Giving outside reports to staff helps them to better understand students. It is especially helpful and appreciated when a new student is starting school.

PACE offers Caregiver Collaboration through our Faces Behavioral Services. This consists of one or more family members working with staff to gain new skills and practice them in an observable setting.
